

**Jerzy Stefanowski** received his Ph.D. and Habilitation degrees from Poznan University of Technology, where has been working for several years. In 2021 he was elected as a member of Polish Academy of Science, where he also plays a role of a Chair of Scientific Council of Institute of Computer Science (IPI PAN) in Warsaw.

His research interests include data mining, machine learning and intelligent decision support. Major results are concerned with: ensemble classifiers, learning from class-imbalanced data, online learning from evolving data streams, explainable AI, induction of various types of rules, data preprocessing, and medical applications of artificial intelligence.

In the last 4 years he is a Head of Machine Learning Lab at Poznan University of Technology. In addition to his research activities, he served in a number of organizational capacities, including being a vice-president of Polish Artificial Intelligence Society (since 2014 till 2026);

He is the author and co-author of over 170 research papers and 3 books.
